

State Bar of New Mexico
Alternative Methods of Dispute Resolution Committee

Mission Statement

We, the members of the Alternative Methods of Dispute Resolution Committee, are committed to advocating for the extended use of alternative methods of conflict resolution.

We support the development and enhancement of processes which are founded upon:

- Integrity;
- Respect and empowerment of participants;
- Acceptance of responsibility;
- Consideration of the impact of the resolution of the disputants and their community;
- Appreciation of diversity.

We accomplish our mission through educating the public and legal profession regarding the availability and benefits of various methods of alternative dispute resolution.

We further support universal training in conflict resolution throughout the State of New Mexico and expanded practical access to such methods of resolution.
